Strategic Report

The Group's focus remains to grow the bakery business through both our GAIL's retail bakeries and our established wholesale channels. The GAIL's bakeries continue to bring outstanding baking to both the neighbourhoods we are already part of and taking our offer to more across the UK. To do this we need to maintain a strong team of supporting professionals and craft bakers dedicated to developing our business.

The wholesale market is very competitive, with growth being aided by continuing to offer existing customers the highest levels of service and quality at reasonable prices, whilst attracting new customers with an unparalleled quality of ingredients and products.

The retail business (GAIL's) continues to be the faster growing and more profitable part of our group. But the market also remains very competitive and we recognise that to be able to grow we must continue to provide innovative world-class food in attractive neighbourhood bakeries. We saw 36 new openings in the year, including the first openings in the South West of England. We intend to continue this wider national growth in the year ahead.

Future developments

The Group will open 40 GAIL's (Retail) bakery stores in the new financial year (12 months to 28 Feb 2026) in England, and similar going forward. It will also develop the Milton Keynes (Wholesale) bakeries, which continues to grow.

Business overview

Over the year, trading was strong – with the Group opening 36 new retail bakeries and continuing to see healthy growth in our established locations. In addition, the wholesale part of the business continued to grow its large Food Service business – from its bakeries in London, Manchester and Bath, and due to the continued success of the brands produced and sold through several large UK supermarket businesses.

As noted above, the group continues to invest in new retail openings and will continue to expand in wider geographic areas within the UK. In addition to the retail space, investments in production capabilities were made in the year with more production lines continuing to move into the new central bakeries in Milton Keynes.

Top line growth in both businesses remains the primary engine of the Group's profit and EBITDA performance and this growth was strong in the year – led by the opening of new space and the continued appeal of our offer. Additionally profit growth was aided in the year by the expansion in the retail arm. But, our operating margin fell YoY from 9.5% to 9.2%, and gross profit margin fell YoY from 38.8% to 38.2% because of increases in staff costs and utilities.

Both revenue and EBITDA grew by 20% on the prior year.

The group continues to hedge its interest rate risk using a SWAP arrangement against its bank loan, effectively fixing debt related interest payments until September 2026. The group experienced a loss on the value of the derivative in the year (see financial income – note 6).

The Group's key performance indicators focus upon divisional turnover and Group profitability. Divisional turnover in the year was as follows:

	2025 £000	2024 £000
Wholesale	96,380	83,725
Retail	219,828	179,050
Eliminations*	(38,163)	(30,990)
Group	<u>278,045</u>	<u>231,785</u>

*Made up of intercompany sales in the year that have been eliminated on consolidation

Strategic Report (*continued*)

Profit before tax to EBITDA reconciliation

		2025	2024
		£000	£000
Loss before tax		(7,846)	(7,442)
+ Depreciation	8+9	21,616	17,432
+ Amortisation	10	3,830	3,534
+ Net Financing expense	6	33,529	29,558
EBITDA		51,129	43,082
+ Store pre-opening costs**		2,424	1,668
Adjusted Group EBITDA		53,553	44,750

**Store pre-opening costs relate to administrative expenses and labour costs of the retail outlets incurred prior to the new bakeries opening to trade

Principal risks and uncertainties

The principal risks and uncertainties facing the group are as follows

Bakery Capacity

Matching capacity to customer needs and product development is an ongoing challenge for the business. This balancing of supply and demand has led to the investment in, and opening of, a second bakery in Milton Keynes. This change should further enhance our ability to supply high quality baked product to our customers while supporting our continued drive to operate an efficient wholesale business to the highest standards.

Competitive risk

- Actions by competitors. Continually benchmarking and monitoring developments in the sector both in consumer behaviour and the competitive environment.
- Changes in customer preferences, perception and/or spending, and use of technology. Please see other section on inhouse R&D.

Legislative risk

All relevant legislative and regulatory changes are closely monitored, and the directors have consultations with the relevant professionals on a regular basis.

Financial management risk

The Group has established a management framework whose primary objective is to protect the Group and company from events that hinder the achievement of the Group's performance objectives. The Group has three objectives:

- to ensure sufficient working capital exists for the company's purposes,
- to minimise the amount of any borrowings, and
- to monitor credit to customers and the balances outstanding to ensure the Group's payment terms are adhered to thereby minimising the credit, liquidity and cash flow risk.

Grain Topco Limited

Strategic Report, Director's Report and Financial Statements

28 February 2025

Strategic Report (continued)

Liquidity risk and cash flow risk

The Group aims to mitigate liquidity and cash flow risks by monitoring cash collection targets throughout the Group and monitoring banking facilities on a regular basis

Treasury activities are delegated by the Board to the Chief Finance Officer ("CFO") The CFO controls policy and performance through the line management structure to the Group Financial Controller ("GFC") The CFO and GFC meet quarterly to discuss the treasury policy

The Group's debt management policy is to provide an appropriate level of funding to finance the Business Plan over the medium term at a competitive cost and ensure flexibility to meet the changing needs of the Group Details of the Group's current borrowing facilities are contained in note 16

Financial instruments

Treasury policy

- The Group's main focus is to
- Ensure adequate funding and liquidity for the Group,
- Manage the interest risk of the Group's debt,
- Invest surplus cash and,
- Manage the clearing bank operations of the Group,

The key risks that the Group faces from a treasury perspective are as follows

Market risk

The Group's exposure to market risk predominantly relates to interest and commodity risk Interest risk is discussed further below Commodity risk is due to the Group's products being manufactured from flour and other raw materials, and therefore subject to price fluctuation The Group mitigates this risk through its close relationships with its supply base, and its knowledge and experience of the marketplace

Climate change risk

As is the case across the sector, the Group is exposed to the potential price volatility of commodities Droughts, brought upon by global warming, could represent an increasing risk to business, as fewer acres of grain may be planted, and the volume and quality of yields could decrease This could in turn contribute to supply and demand scenarios that could mean higher costs of producing bakery goods These risks are mitigated by using UK suppliers, forward buying electricity, using multiple suppliers for ingredients and using recipes and products that can be interchanged

Interest rate risk

The Group's policy aims to manage the interest cost of the Group within the constraints of the Business Plan and its financial covenants The Group's borrowings have a fixed premium over SONIA The Group took out an interest rate SWAP nearly equal to its total bank loans in 2023 effectively removing interest rate risk for several years Further disclosure details on the interest rate SWAP can be found in note 16 Interest rate movements on deposits, obligations under finance leases, trade payables, trade receivables, and other financial instruments do not present a material exposure to the Group's balance sheet

Capital risk management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital

The Group manages capital by operating within a debt ratio This ratio is Total Bank Debt to Consolidated EBITDA

Strategic Report (continued)

The Directors of Grain Topco Limited are actively committed to sustainable growth & development in order to promote the success of the Group, and for the benefit of all its stakeholders. Key strategic decisions are underpinned by the principle of S172 factors, which help to maintain long term strategic decision making.

The Group seeks to serve its customers' and their best interests first, collaborate with its suppliers to ensure a sustainable and fair supply of goods & services, invests in its employees to promote long term success & retention and supports the communities and environments in which it operates in order to generate sustainable profits.

The Directors have acted in accordance with their duties codified in law, which include their duty to act in the way in which they consider, in good faith, would be most likely to promote the success of the Company for the benefit of its members as a whole, having regard to the stakeholders and matters set out in section 172(1) of the Companies Act 2006. We have set out below some examples of how the directors have had regard to the matters set out in Section 172(1)(a) to (f) of the Companies Act 2006 when discharging their Section 172 duties.

Customers and their needs Our sales team build long lasting relationships with current and potential clients to understand their needs and requirements. Regular contact is maintained with all our customers, and our product range is actively managed and maintained by our Trading Director to ensure sustainable products are produced for our customers.

Consider impact of operations on the community With an aim to keep surplus food to a minimum, we work with many local charities to ensure that any surplus food from our retail stores is donated to people who need it within the communities in which we are a part.

Consider consequences on the environment: As a group we take seriously our role in the local neighbourhoods we operate in and the wider UK Food Production and Service of which we are a growing part, to make our contribution a positive one we continue to push forward in a number of areas including reusing food where we can to reduce our wastage, reduce our usage of non-recyclable packaging and energy – including growing our electric fleet and being in the process of adding significant solar panels to our largest production bakery. We continue to strive to do more in this important area and partner with organisations that share our ethos.

Director's report

Principal activities

The principal activity of the company is that of a holding company

The principal activity of the Group during the year was that of a wholesale bakery (The Bread Factory Limited and The Bertinet Bakery Limited), retail outlets (Gail's Limited) and a gluten free only bakery (Wild Thexton Gluten Free Limited)

During the year end, the group purchased the 50% shares owned externally, making Wild Thexton Gluten Free Limited a wholly owned subsidiary

Post Balance Sheet Events

There were no post balance sheet events

Structural Reorganisation

After the year end date the group have acted to strike off several dormant companies within the structure, these are

- The Bread Roll Company Limited
- DSV Holdings Limited
- Wild Thexton Limited

Going concern

Notwithstanding a loss for the year amounting to £10.3m, the financial statements have been prepared on a going concern basis which the directors consider to be appropriate for the following reasons

Trading performance in the financial year is strong and business generated net cashflow amounting to £50.2 million from operating activities during the year. In order to complete the going concern assessment, the Directors have prepared a base cash flow forecast for the period up to 28 February 2028 and then a second forecast taking into account plausible downside scenarios on the operations and financial resources of the Group and Company. The conclusion of this is that the Group will have sufficient funds to meet its liabilities as they fall due during that period.

In looking at a severe downside, the Directors have considered a scenario with a

- 5% reduction in revenue from GAIL's, and a
- 10% increase in ingredients prices

The revenue reduction modelling is accompanied by a restriction in new shop openings, a reduction in the level of capital expenditure, and restrictions on some central costs.

The Group is funded by a combination of available cash balances, external bank loan funding and Preference shares and is subject to financial covenants in relation to the bank loans. The Directors have assessed the Group's ability to comply with these financial covenants based on the forecasts described above and concluded that the Group will be in compliance even in the plausible downside scenario. The directors also note that the external bank loans of £112.5m are not repayable until 2028 with a fixed rate SWAP contract in place until September 2026.

Consequently, the Directors are confident that the Group and Company will have sufficient funds to continue to meet its liabilities as they fall due for at least 12 months from the date of approval of the financial statements and therefore have prepared the financial statements on a going concern basis.

Director's report (continued)

Research & Development

The Group has a commitment to quality and innovation. This drives our efforts in research and development (R&D). These initiatives are in line with our mission to provide our customers with both healthier and tastier bakery products. We are excited about the progress we have made and remain dedicated to pushing the boundaries of what is possible in artisan baking. Our R&D activities are central to our vision of delivering exceptional bakery products that delight our customers every day.

S172(1) statement

Section 172 of the Companies Act 2006 requires a director of a company to act in the way he or she considers, in good faith, would most likely promote the success of the company for the benefit of its members as a whole. As such, Section 172 requires a director to have due regard, amongst other matters, to the

- Likely consequences of any decisions in the long-term,
- Interests of the company's employees,
- Need to foster the company's business relationships with suppliers, customers and others,
- Impact of the company's operations on the community and environment,
- Desirability of the company maintaining a reputation for high standards of business conduct, and
- Need to act fairly as between members of the company

Proposed dividend

The directors do not recommend the payment of a dividend (2024: £Nil)

Directors

The directors who held office during the year and up to the date of this report were as follows

Henry McGovern
Luke Johnson
Tom Molnar
Bradley Palmer

Employment of disabled persons

The Group is committed to a policy of recruitment and promotion on the basis of aptitude and ability without discrimination of any kind. Management actively pursues both the employment of disabled persons whenever a suitable vacancy arises and the continued employment and retraining of employees who become disabled whilst employed by the Group. Particular attention is given to the training, career development and promotion of disabled employees with a view to encouraging them to play an active role in the development of the Group.

Employee involvement

Within the bounds of commercial confidentiality, information is disseminated to all members of staff about matters that affect the progress of the Group and are of interest and concern to them as employees.

Director's report (continued)

Political contributions

Neither the Company nor any of its subsidiaries made any political donations or incurred any political expenditure during the current year (2024 £Nil)

Greenhouse Gas Emissions

During the year the Group undertook the following energy efficiency actions

- Maintained a formal Energy Policy
- Electricity is provided only from renewable sources
- Review of existing fleet for efficiency and compliance with Ultra Low Emission Zone (ULEZ) criteria
- Purchases of electric vehicles and further review of future vehicle purchases and inclusion into the fleet
- Recording and monitoring accurate fuel consumption and mileage data for fleet
- Reduction of non-recyclable packaging and energy – includes the addition of solar panels to the new bakery post year end

The following table details the Group's emissions data for the year

	Year Ending 28 February 2025	Year Ending 29 February	Year Ending 28 February 2023***
Energy Consumption (kWh)			
Scope 1	11,203,934	10,877,251	10,698,229
Scope 2	24,616,285	20,169,880	15,392,045
Total	35,820,219	31,047,131	26,090,274
Associated Greenhouse Gas Emissions (tCO₂e)			
Scope 1	2,174	2,118	2,092
Scope 2	5,097	4,177	2,977
Total	7,271	6,295	5,069
Intensity ratio. tCO₂e / £1,000,000 revenue	26.15	27.16	27.89

***The year ending 28 Feb 2023 is considered the base year for comparative purposes, being the first full year since incorporation

UK energy use covers the production and transportation of baked products in addition to the day-to-day business operations across the Group. Energy use has been calculated via electricity and gas invoices. Consumption data relating to business travel in leased company cars has not been collected as this travel is minimal.

Associated Greenhouse gases have been calculated using the UK government published emissions factor for the relevant reporting year.

Sustainability Agenda

The business understands the importance of making a meaningful contribution to the environment and to improving the UK's food system. We have approached this responsibility in the following ways:

1. Work with (and encourage the growth of) good actors in farming, distribution and wholesale supply chains, e.g. we are actively sourcing flour from regenerative sources, sourcing our coffee from known growing cooperatives and purchasing ingredients from small premium ingredient suppliers and producers while providing technical and planning support.
2. Improve our own operations to reduce our environmental impact, e.g. we have increased our fleet of fully electric delivery vans, installed solar panels on the rooftop of our Milton Keynes bakery, undertaken reassessments of our delivery intensity to minimise mileage covered, buying home compostable packaging and takeaway cutlery and cups for most retail needs, setting higher targets for our recycling and installing electricity usage monitors where viable.

Director's report (continued)

1. Take action to help our communities, e.g. continue to make our end of day extras available to local charities in need (~80% of our nights are being covered) and planning a series of food nutrition and sourcing comms to help our customers understand the food landscape and their own choices better

Corporate Governance

Purpose and Leadership

Grain Topco believes its purpose is to improve the availability of high-quality bakery products in the communities that we serve

The Board and Director Responsibilities

The Board takes a number of steps to ensure that when making decisions there is sufficient regard to Key stakeholders

The board continues to engage in understanding the corporate governance needed to promote balanced decision-making and will look to the inclusion of all stakeholder interests in its ongoing decision-making

The Board consists of executive directors, non-executive directors and shareholder representatives. The Board has 12 scheduled meetings every year with additional meetings scheduled as required. The Board receives regular and timely information on all key aspects of the business. Day-to-day running of the business is delegated by the board to the executive leadership team.

The Board also maintains a conflict of interest register to ensure that decisions are made independently. The board has established approved terms of reference for the audit committee. The audit committee assist in the board responsibilities regarding financial reporting and overseeing the performance and independence of its external auditors. Membership of the audit committee consists of an executive and three non-executive directors.

Operational risks and principal areas of uncertainty are set out in the strategic report under the section in charge of principal, risks, and uncertainties. The CFO is required to give regular updates around group risk to the board.

Remuneration

The current remuneration policy is that the CEO salary is recommended by the chairman, executive directors and other executive management. Salaries are in turn recommended by the CEO and approved by the Remuneration Committee – comprising the Chairman, CEO and principal shareholders. The same principle is cascaded down throughout management. Executive director and senior management performance is assessed against both financial and non-financial targets.

Non-financial targets

Within the year, 816 tonnes of regenerative wheat were used in our breads. Included within the core key performance indicators is the commitment to a 100% increase in usage of regenerative flour by February 2026. There was a 178% increase in loaves made with regenerative flour since the prior year. It is also aiming to send 70% (2024: 60%) of its waste to recycling or composting facilities. The entities within the group strive to be great places to work within the industry, and recent "best companies" survey showed a result of 87% (2024: 87%) of staff agreeing that their team was "fun to work with".

Director's report (continued)

Disclosure of information to auditor

The directors who held office at the date of approval of this directors' report confirm that, so far as they are each aware, there is no relevant audit information of which the company's auditor is unaware, and each director has taken all the steps that they ought to have taken as a director to make themselves aware of any relevant audit information and to establish that the company's auditor is aware of that information

The directors are responsible for preparing the Strategic Report, the Directors' Report and the group and parent company financial statements in accordance with applicable law and regulations

Company law requires the directors to prepare group and parent company financial statements for each financial year. Under that law they have elected to prepare the group financial statements in accordance with UK-adopted international accounting standards and applicable law and have elected to prepare the parent company financial statements in accordance with UK accounting standards and applicable law (UK Generally Accepted Accounting Practice), including FRS 102 *The Financial Reporting Standard applicable in the UK and Republic of Ireland*

Auditor

Pursuant to Section 487 of the Companies Act 2006, the auditor will be deemed to be re-appointed, and KPMG LLP will therefore continue in office

Grain Topco Limited

Strategic Report, Director's Report and Financial Statements
28 February 2025

Statement of directors' responsibilities in respect of the Strategic Report, the Directors' Report and the financial statements

The directors are responsible for preparing the Strategic Report, the Directors' Report and the Group and parent Company financial statements in accordance with applicable law and regulations

Company law requires the directors to prepare Group and parent Company financial statements for each financial year. Under that law they have elected to prepare the Group financial statements in accordance with UK-adopted international accounting standards and applicable law and have elected to prepare the parent Company financial statements in accordance with UK accounting standards and applicable law (UK Generally Accepted Accounting Practice), including FRS 102 *The Financial Reporting Standard applicable in the UK and Republic of Ireland*.

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Group and parent Company and of the Group's profit or loss for that period. In preparing each of the Group and parent Company financial statements, the directors are required to

- select suitable accounting policies and then apply them consistently,
- make judgements and estimates that are reasonable, relevant, reliable and prudent,
- for the Group financial statements, state whether they have been prepared in accordance with UK-adopted international accounting standards,
- for the parent Company financial statements, state whether applicable UK accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements,
- assess the Group and parent Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern, and
- use the going concern basis of accounting unless they either intend to liquidate the Group or the parent Company or to cease operations, or have no realistic alternative but to do so.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the parent Company's transactions and disclose with reasonable accuracy at any time the financial position of the parent Company and enable them to ensure that its financial statements comply with the Companies Act 2006. They are responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Group and to prevent and detect fraud and other irregularities.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF GRAIN TOPCO LIMITED

Opinion

We have audited the financial statements of Grain Topco Limited ("the Company") for the year ended 28 February 2025 which comprise the Consolidated Income Statement, Consolidated Statement of Other Comprehensive Income, Consolidate Balance Sheet, Consolidated Statement of Changes in Equity, Consolidated Cashflow Statement, Company Balance Sheet, Company Statement of Changes in Equity and related notes, including the accounting policies in note 1

In our opinion

- the financial statements give a true and fair view of the state of the Group's and of the parent Company's affairs as at 28 February 2025 and of the Group's loss for the year then ended,
- the Group financial statements have been properly prepared in accordance with UK-adopted international accounting standards,
- the parent Company financial statements have been properly prepared in accordance with UK accounting standards, including FRS 102 *The Financial Reporting Standard applicable in the UK and Republic of Ireland*, and
- the financial statements have been prepared in accordance with the requirements of the Companies Act 2006

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities are described below. We have fulfilled our ethical responsibilities under, and are independent of the Group in accordance with, UK ethical requirements including the FRC Ethical Standard. We believe that the audit evidence we have obtained is a sufficient and appropriate basis for our opinion.

Going concern

The directors have prepared the financial statements on the going concern basis as they do not intend to liquidate the Group or the Company or to cease their operations, and as they have concluded that the Group and the Company's financial position means that this is realistic. They have also concluded that there are no material uncertainties that could have cast significant doubt over their ability to continue as a going concern for at least a year from the date of approval of the financial statements ("the going concern period").

In our evaluation of the directors' conclusions, we considered the inherent risks to the Group's business model and analysed how those risks might affect the Group and Company's financial resources or ability to continue operations over the going concern period.

Our conclusions based on this work

- we consider that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate,
- we have not identified, and concur with the directors' assessment that there is not, a material uncertainty related to events or conditions that, individually or collectively, may cast significant doubt on the Group or the Company's ability to continue as a going concern for the going concern period.

However, as we cannot predict all future events or conditions and as subsequent events may result in outcomes that are inconsistent with judgements that were reasonable at the time they were made, the above conclusions are not a guarantee that the Group or the Company will continue in operation.

Fraud and breaches of laws and regulations – ability to detect

Identifying and responding to risks of material misstatement due to fraud

To identify risks of material misstatement due to fraud ("fraud risks") we assessed events or conditions that could indicate an incentive or pressure to commit fraud or provide an opportunity to commit fraud. Our risk assessment procedures included:

- Enquiring of directors and inspection of policy documentation as to the Group's high-level policies and procedures to prevent and detect fraud as well as whether they have knowledge of any actual, suspected or alleged fraud
- Reading Board meeting minutes
- Using analytical procedures to identify any unusual or unexpected relationships

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF GRAIN TOPCO LIMITED

We communicated identified fraud risks throughout the audit team and remained alert to any indications of fraud throughout the audit. This included communication from the Group audit team to full scope component audit teams of relevant fraud risks identified at the Group level and request to full scope component audit teams to report to the Group audit team any instances of fraud that could give rise to a material misstatement at the Group level.

As required by auditing standards, and taking into account possible pressures to meet profit and covenant targets we perform procedures to address the risk of management override of controls, in particular the risk that management may be in a position to make inappropriate accounting entries. On this audit we do not believe there is a fraud risk related to revenue recognition due to the low value of individual revenue transactions, meaning that in order for revenue to be materially misstated a significantly large number of individual revenue transactions have to be affected.

We did not identify any additional fraud risks.

We also performed procedures including

- Identifying journal entries to test for all full scope components based on risk criteria and comparing the identified entries to supporting documentation. These included revenue, cash and borrowings journals posted to unusual accounts.
- Assessing whether the judgements made in making accounting estimates are indicative of a potential bias.

Identifying and responding to risks of material misstatement related to compliance with laws and regulations

We identified areas of laws and regulations that could reasonably be expected to have a material effect on the financial statements from our general commercial and sector experience and through discussion with the directors (as required by auditing standards), and from inspection of the Group's regulatory and legal correspondence and discussed with the directors the policies and procedures regarding compliance with laws and regulations.

We communicated identified laws and regulations throughout our team and remained alert to any indications of non-compliance throughout the audit. This included communication from the Group audit team to full-scope component audit teams of relevant laws and regulations identified at the Group level, and a request for full scope component auditors to report to the Group audit team any instances of non-compliance with laws and regulations that could give rise to a material misstatement at the Group level.

The potential effect of these laws and regulations on the financial statements varies considerably.

Firstly, the Group is subject to laws and regulations that directly affect the financial statements including financial reporting legislation (including related companies legislation), distributable profits legislation, taxation legislation and we assessed the extent of compliance with these laws and regulations as part of our procedures on the related financial statement items.

Secondly, the Group is subject to many other laws and regulations where the consequences of non-compliance could have a material effect on amounts or disclosures in the financial statements, for instance through the imposition of fines or litigation or the loss of the Group's/Company's license to operate. We identified the following areas as those most likely to have such an effect: health and safety, data protection laws, anti-bribery, employment law, regulatory capital and liquidity, food safety regulations, environmental regulations and certain aspects of company legislation. Auditing standards limit the required audit procedures to identify non-compliance with these laws and regulations to enquiry of the directors and inspection of regulatory and legal correspondence, if any. Therefore if a breach of operational regulations is not disclosed to us or evident from relevant correspondence, an audit will not detect that breach.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF GRAIN TOPCO LIMITED

Context of the ability of the audit to detect fraud or breaches of law or regulation

Owing to the inherent limitations of an audit, there is an unavoidable risk that we may not have detected some material misstatements in the financial statements, even though we have properly planned and performed our audit in accordance with auditing standards. For example, the further removed non-compliance with laws and regulations is from the events and transactions reflected in the financial statements, the less likely the inherently limited procedures required by auditing standards would identify it.

In addition, as with any audit, there remained a higher risk of non-detection of fraud, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls. Our audit procedures are designed to detect material misstatement. We are not responsible for preventing non-compliance or fraud and cannot be expected to detect non-compliance with all laws and regulations.

Strategic report and directors' report

The directors are responsible for the strategic report and the directors' report. Our opinion on the financial statements does not cover those reports and we do not express an audit opinion thereon.

Our responsibility is to read the strategic report and the directors' report and, in doing so, consider whether, based on our financial statements audit work, the information therein is materially misstated or inconsistent with the financial statements or our audit knowledge. Based solely on that work:

- we have not identified material misstatements in the strategic report and the directors' report,
- in our opinion the information given in those reports for the financial year is consistent with the financial statements, and
- in our opinion those reports have been prepared in accordance with the Companies Act 2006.

Matters on which we are required to report by exception

Under the Companies Act 2006, we are required to report to you if, in our opinion:

- adequate accounting records have not been kept by the parent Company, or returns adequate for our audit have not been received from branches not visited by us, or
- the parent Company financial statements are not in agreement with the accounting records and returns, or
- certain disclosures of directors' remuneration specified by law are not made, or
- we have not received all the information and explanations we require for our audit.

We have nothing to report in these respects.

Directors' responsibilities

As explained more fully in their statement set out on page 11, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, assessing the Group and parent Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern, and using the going concern basis of accounting unless they either intend to liquidate the Group or the parent Company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue our opinion in an auditor's report. Reasonable assurance is a high level of assurance, but does not guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

A fuller description of our responsibilities is provided on the FRC's website at www.frc.org.uk/auditorsresponsibilities.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF GRAIN TOPCO LIMITED (cont'd)

The purpose of our audit work and to whom we owe our responsibilities

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

Notes (forming part of the financial statements)

1 Accounting policies

Grain Topco Limited is a company incorporated and domiciled in the UK

The Group financial statements consolidate those of the Company and its subsidiaries (together referred to as the "Group") and equity account the Group's interest in jointly controlled entities. The parent company financial statements present information about the Company as a separate entity and not about its Group.

The Group financial statements have been prepared and approved by the directors in accordance with UK-adopted international accounting standards ("UK-adopted IFRS"). The Company has elected to prepare its parent company financial statements in accordance with FRS 102, these are presented on pages 49 to 53.

The accounting policies set out below have, unless otherwise stated, been applied consistently to all years presented in these Group financial statements.

Judgements made by the directors, in the application of those accounting policies that have significant effect on the financial statements and estimates with a significant risk of material adjustment in the next year are discussed in note 1.4.

1.1 Measurement convention

The financial statements are prepared on the historical cost basis, and presented in round thousands, unless otherwise indicated.

1.2 Going concern

Notwithstanding a loss for the year amounting to £10.3m, the financial statements have been prepared on a going concern basis which the directors consider to be appropriate for the following reasons:

Trading performance in the financial year is strong and business generated net cashflow amounting to £50.2 million from operating activities during the year. In order to complete the going concern assessment, the Directors have prepared a base cash flow forecast for the period up to 28 February 2028 and then a second forecast taking into account plausible downside scenarios on the operations and financial resources of the Group and Company.

The conclusion of this is that the Group will have sufficient funds to meet its liabilities as they fall due during that period.

In looking at a severe downside, the Directors have considered the following scenario:

- 5% reduction in revenue from Gail's, and
- 10% increase in ingredients prices

The revenue reduction modelling is accompanied by a restriction in new shop openings and a reduction in the level of capital expenditure.

The Group is funded by a combination of available cash balances, external bank loan funding and Preference shares and is subject to financial covenants in relation to the bank loans. The Directors have assessed the Group's ability to comply with these financial covenants based on the forecasts described above and concluded that the Group will be in compliance even in the plausible downside scenario.

The directors also note that the external bank loans of £112.5m are not repayable until 2028 with a fixed rate SWAP contract in place, meaning that interest costs are largely fixed despite Bank of England interest rate increases.

Consequently, the Directors are confident that the Group and Company will have sufficient funds to continue to meet its liabilities as they fall due for at least 12 months from the date of approval of the financial statements and therefore have prepared the financial statements on a going concern basis.

Notes (continued)

1 Accounting policies (continued)

1.3 Basis of consolidation

Subsidiaries

Subsidiaries are entities controlled by the Group. Control exists when the Group has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, the Group takes into consideration potential voting rights that are currently exercisable. The acquisition date is the date on which control is transferred to the acquirer. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated. Unrealised gains arising from transactions with equity-accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

1.4 Significant judgements and estimates in applying the Group's accounting policies

In the application of these accounting policies, there are several judgments made by the directors, that have significant effect on the financial statements and estimates with a significant risk of material adjustment in the next year. These are as follows:

Leases

Determining the lease term of contracts with renewal and termination options – Group as lessee

The group determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain to be exercised.

The group has several lease contracts for which a break clause is included. Some leases include, and others do not include an option to extend. Where applicable, the group applies judgement in assessing whether it is reasonably certain whether to exercise the option to renew or terminate the lease. The group considers all relevant information that creates an economic incentive for it to either extend (where applicable) or not terminate the lease. After the commencement date, the group reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew or terminate.

For the group's leases, the renewal periods (where applicable) are not included as part of the lease term as these are not reasonably certain to be exercised. The periods covered by the termination options are included as part of the lease term when they are reasonably certain not to be exercised.

Notes (continued)

1 Accounting policies (continued)

Non-financial assets impairment testing

Under IFRS, goodwill and other indefinite life intangible assets must be tested for impairment on at least an annual basis. Other non-financial assets must be tested for impairment where an indicator of impairment exists. This testing generally requires management to make multiple estimates to determine the recoverable amount, for example around individual market pressures and forces, likely future cash inflows, growth rates and discount rates. Given the uncertainty over these estimates, actual results might be higher or lower.

1.5 Impairment of non-financial assets excluding inventories and deferred tax assets

The carrying amounts of the Company's non-financial assets, other than goodwill, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For goodwill, and intangible assets that have indefinite useful lives or that are not yet available for use, the recoverable amount is estimated each year at the same time.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit"). The goodwill acquired in a business combination, for the purpose of impairment testing, is allocated to cash-generating units, or ("CGU"). Subject to an operating segment ceiling test, for the purposes of goodwill impairment testing, CGUs to which goodwill has been allocated are aggregated so that the level at which impairment is tested reflects the lowest level at which goodwill is monitored for internal reporting purposes. Goodwill acquired in a business combination is allocated to groups of CGUs that are expected to benefit from the synergies of the combination.

An impairment loss is recognised if the carrying amount of an asset or its CGU exceeds its estimated recoverable amount. Impairment losses are recognised in profit or loss. Impairment losses recognised in respect of CGUs are allocated first to reduce the carrying amount of any goodwill allocated to the units, and then to reduce the carrying amounts of the other assets in the unit (group of units) on a pro rata basis.

An impairment loss in respect of goodwill is not reversed. In respect of other assets, impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

The recoverable amounts of the CGUs to which goodwill has been allocated is derived from estimates of future cash flows and the impairment testing of goodwill is also subject to these estimates. The detail around the key estimates is included in note 10.

Notes (continued)

1 Accounting policies (continued)

1.5 Joint venture

A joint venture is an arrangement over which the Group and one or more third parties share the risks and rewards of the arrangement. The Group has considered who exercises power over the joint venture, Wild Thexton Gluten Free Limited ("investee"), exposure and rights to variable returns and, the ability to use power over the investee to affect these returns. The Group considers that they control the investee and as such have accounted for it under the same principle as a subsidiary.

1.6 Foreign currency

Transactions in foreign currencies are translated to the respective functional currencies of Group entities at the foreign exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are retranslated to the functional currency at the foreign exchange rate ruling at that date. Foreign exchange differences arising on translation are recognised in the income statement. Non-monetary assets and liabilities denominated in foreign currencies that are stated at fair value are retranslated to the functional currency at foreign exchange rates ruling at the dates the fair value was determined.

1.7 Classification of financial instruments issued by the Group

Following the adoption of IAS 32, financial instruments issued by the Group are treated as equity only to the extent that they meet the following two conditions:

- they include no contractual obligations upon the group to deliver cash or other financial assets or to exchange financial assets or financial liabilities with another party under conditions that are potentially unfavourable to the group, and
- where the instrument will or may be settled in the company's own equity instruments, it is either a non-derivative that includes no obligation to deliver a variable number of the company's own equity instruments or is a derivative that will be settled by the company's exchanging a fixed amount of cash or other financial assets for a fixed number of its own equity instruments.

To the extent that this definition is not met, the proceeds of issue are classified as a financial liability. Where the instrument so classified takes the legal form of the company's own shares, the amounts presented in these financial statements for called up share capital and share premium account exclude amounts in relation to those shares.

1.8 Non-derivative financial instruments

Non-derivative financial instruments comprise investments in equity and debt securities, trade and other receivables, cash and cash equivalents, loans and borrowings, and trade and other payables.

Trade and other receivables

Trade and other receivables are recognised initially at fair value. Subsequent to initial recognition they are measured at amortised cost using the effective interest method, less any impairment losses.

Cash and cash equivalents

Cash and cash equivalents comprise cash balances and call deposits. Bank overdrafts that are repayable on demand and form an integral part of the Group's cash management are included as a component of cash and cash equivalents for the purpose only of the cash flow statement.

Trade and other payables

Trade and other payables are recognised initially at fair value. Subsequent to initial recognition they are measured at amortised cost using the effective interest method.

Interest-bearing borrowings

Interest-bearing borrowings are recognised initially at fair value less attributable transaction costs. Subsequent to initial recognition, interest-bearing borrowings are stated at amortised cost using the effective interest method, less any impairment losses.

Notes (continued)

1 Accounting policies (continued)

1.9 Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses

Where parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items of property, plant and equipment

Depreciation is charged to the income statement on a straight-line basis over the estimated useful lives of each part of an item of property, plant and equipment. The estimated useful lives are as follows:

• short leasehold and leasehold improvements	shorter of the life of the lease and the life of the asset
• freehold property	50 years
• plant and equipment	5 years
• fixtures and fittings	5 years
• motor vehicles	5 years
• computer equipment	3 years

Depreciation methods, useful lives and residual values are reviewed at each balance sheet date

1.10 Business combinations

All business combinations are accounted for by applying the acquisition method when the acquired set of activities and assets meets the definition of a business and control is transferred to the Group. In determining whether a particular set of activities and assets is a business, the Group assesses whether the set of assets and activities acquired includes, at a minimum, an input and substantive process and whether the acquired set has the ability to produce outputs.

Business combinations are accounted for using the acquisition method as at the acquisition date, which is the date on which control is transferred to the Group.

The Group measures goodwill at the acquisition date as:

- the fair value of the consideration transferred, plus
- the recognised amount of any non-controlling interests in the acquiree, plus
- the fair value of the existing equity interest in the acquiree, less
- the net recognised amount (generally fair value) of the identifiable assets acquired and liabilities assumed

Costs related to the acquisition, other than those associated with the issue of debt or equity securities, are expensed as incurred.

1.11 Intangible assets and goodwill

Goodwill

Goodwill arises on the acquisition of a business and represents the excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition date fair value of any previously held equity interest in the acquiree over the fair value of the net assets acquired.

Goodwill is stated at cost less any accumulated impairment losses. Goodwill is allocated to cash-generating units and is not amortised but is tested annually for impairment. In respect of equity-accounted investees, the carrying amount of goodwill is included in the carrying amount of the investment in the investee.

Research and development

Expenditure on research activities is recognised in the income statement as an expense as incurred.

Notes (continued)

1 Accounting policies (continued)

Other intangible assets

Expenditure on internally generated goodwill and brands is recognised in the income statement as an expense as incurred

Other intangible assets that are acquired as part of a business combination are capitalised separately from the goodwill at fair value if those assets are separately identifiable and their fair value can be measured reliably. Intangible assets are stated at cost less accumulated amortisation and accumulated impairment losses.

Amortisation

Amortisation is charged to the income statement on a straight-line basis over the estimated useful lives of intangible assets unless such lives are indefinite. Intangible assets with an indefinite useful life and goodwill are systematically tested for impairment at each balance sheet date. Other intangible assets are amortised from the date they are available for use. The estimated useful lives are as follows:

Brand	20 years
Customer related	10 years
Software	3 years

Fair value of intangibles on acquisition is calculated using an income approach utilising discounted cash flow forecasts.

1.12 Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is based on the first-in first-out principle and includes expenditure incurred in acquiring the inventories, production or conversion costs and other costs in bringing them to their existing location and condition.

1.13 Impairment of financial instruments

Financial assets

The Group recognises loss allowances for expected credit losses (ECLs) on financial assets measured at amortised cost.

The Group measures loss allowances at an amount equal to lifetime ECL, except for other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition, which are measured as 12-month ECL.

Loss allowances for trade receivables and contract assets that do not contain a significant financing component are always measured at an amount equal to lifetime ECL.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group's historical experience and informed credit assessment and including forward-looking information.

The Group assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due.

The Group considers a financial asset to be in default when:

- the borrower is unlikely to pay its credit obligations to the Group in full, without recourse by the Group to actions such as realising security (if any is held), and
- the financial asset is more than 120 days past due.

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument.

Notes (continued)

1 Accounting policies (continued)

12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months). The maximum period considered when estimating ECLs is the maximum contractual period over which the Group is exposed to credit risk.

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Group expects to receive). ECLs are discounted at the effective interest rate of the financial asset. At each reporting date, the Group assesses whether financial assets carried at amortised cost and debt securities at FVOCI are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery.

Non-financial assets

The carrying amounts of the Group's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For goodwill, and intangible assets that have indefinite useful lives or that are not yet available for use, the recoverable amount is estimated each year at the same time.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit"). The goodwill acquired in a business combination, for the purpose of impairment testing, is allocated to cash-generating units, or ("CGU"). Subject to an operating segment ceiling test, for the purposes of goodwill impairment testing, CGUs to which goodwill has been allocated are aggregated so that the level at which impairment is tested reflects the lowest level at which goodwill is monitored for internal reporting purposes. Goodwill acquired in a business combination is allocated to groups of CGUs that are expected to benefit from the synergies of the combination.

1.14 Post-retirement benefits

The Company operates a defined contribution pension scheme. The assets of the scheme are held separately from those of the Company in an independently administered fund. The amount charged to the profit and loss account represents the contributions payable to the scheme in respect of the accounting year.

1.15 Provisions

A provision is recognised in the balance sheet when the Group has a present legal or constructive obligation as a result of a past event, that can be reliably measured, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects risks specific to the liability.

1.16 Expenses

Financing income and expenses

Financing expenses comprise interest payable. Borrowing costs that are directly attributable to the acquisition, construction or production of an asset that takes a substantial time to be prepared for use, are capitalised as part of the cost of that asset. Financing income comprises interest receivable on funds invested, dividend income, and net foreign exchange gains.

Interest income and interest payable is recognised in profit or loss as it accrues, using the effective interest method. Dividend income is recognised in the income statement on the date the entity's right to receive payments is established. Foreign currency gains and losses are reported on a net basis.

Notes (continued)

1 — Accounting policies (continued)

1.17 Revenue

Retail Sales

The Group generates revenue from retail sales through the sale of goods to customers in-store. A revenue contract is entered into by the customer at the point of sale when an order is placed in-store. The Group's performance obligation to provide the food and drink products ordered by the customer is satisfied, and revenue recognised, at the point of sale.

Wholesale Sales

The Group generates revenue from the sale of bakery products to food service and grocery customers. A revenue contract is established when a customer places an order, and the Group confirms acceptance. The Group's performance obligation is to deliver the specified goods to the customer, and revenue is recognised at the point in time when control of the goods transfers to the customer, typically upon delivery.

1.18 Taxation

Tax on the profit or loss for the year comprises current and deferred tax. Tax is recognised in the income statement except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

Deferred tax is provided on temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The following temporary differences are not provided for: the initial recognition of goodwill, the initial recognition of assets or liabilities that affect neither accounting nor taxable profit other than in a business combination, and differences relating to investments in subsidiaries to the extent that they will probably not reverse in the foreseeable future. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the balance sheet date. A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised.

1.19 Leases

For any new contracts entered into, the Company considers whether a contract is, or contains a lease. A lease is defined as 'a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a year of time in exchange for consideration'.

To apply this definition the Group assesses whether the contract meets three key evaluations which are whether:

- 1 The contract contains an identified asset, which is either explicitly identified in the contract or implicitly specified by being identified at the time the asset is made available to the Group.
- 2 The Group has the right to obtain substantially all of the economic benefits from use of the identified asset throughout the year of use, considering its rights within the defined scope of the contract.
- 3 The Group has the right to direct the use of the identified asset throughout the year of use. The Group should assess whether it has the right to direct 'how and for what purpose' the asset is used throughout the year of use.

Notes (continued)

1. Accounting policies (continued)

Initial measurement of the right-of-use asset

The cost of the right-of-use asset shall comprise

- The amount of the initial measurement of the liability
- Any lease payments made at or before the commencement date, less any lease incentives received
- Any initial direct costs incurred by the Group as lessee (considering the materiality level), and
- An estimate of costs to be incurred by the Group in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease, unless those costs are incurred to produce inventories. The Group incurs the obligation for those costs either at the commencement date or because of having used the underlying asset during a particular year.

Initial measurement of lease liability

At the commencement date, the lease payments included in the measurement of the lease liability comprise the following payments for the right to use the underlying asset during the lease term that are not paid at the commencement date:

- Fixed payments less any lease incentives receivable
 - Variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date (for example, payments linked to a consumer price index, payments linked to a benchmark interest rate (such as SONIA) or payments that vary to reflect changes in market rental rates)
 - Amounts expected to be payable by the Group under residual value guarantees
- Payments of penalties for terminating the lease, if the lease term reflects the Group exercising an option to terminate the lease

Subsequent measurement of the right-of-use asset

The Group as a lessee shall measure the right-of-use asset at cost by subtracting any accumulated depreciation and any accumulated impairment losses, and adjusted for any remeasurement of the lease liability.

After the commencement date, the Group shall remeasure the lease liability to reflect changes to the lease payments. The Group shall recognise the amount of the remeasurement of the lease liability as an adjustment to the right-of-use asset. However, if the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Group shall recognise any remaining amount of the remeasurement in profit or loss. The Group shall remeasure the lease liability by discounting the revised lease payments using a revised discount rate, if either:

- Interest on the lease liability, and
 - Variable lease payments not included in the measurement of the lease liability in the year in which the event or condition that triggers those payments occurs.
 - Any material amendment within the scope of the lease contract.
- The company shall remeasure the lease liability by discounting the revised lease payments, if either:
- There is a change in the amounts expected to be payable under a residual value guarantee. The Group shall determine the revised lease payments to reflect the change in amounts expected to be payable under the residual value guarantee.
 - There is a change in future lease payments resulting from a change in an index or a rate used to determine those payments, including for example a change to reflect an uplift in market rental rates following a market rent review. The Group shall remeasure the lease liability to reflect those revised lease payments only when there is a change in the cash flows (i.e., when the adjustment to the lease payments takes effect). The Group shall determine the revised lease payments for the remainder of the lease term based on the revised contractual payments.

On the consolidated balance sheet, right-of-use assets have been included in property, plant and equipment and lease liabilities have been included as a separate line item.

Notes (continued)

1. Accounting policies (continued)

1 20 Adopted IFRS not yet applied

The following UK-adopted IFRSs have been issued but have not been applied by the Group in these consolidated financial statements. Their adoption is not expected to have a material effect on the financial statements unless otherwise indicated.

- Amendments to IFRS 16 Leases: Lease Liability in a Sale and Leaseback (effective 1 January 2024)
- Amendments to IAS 1 Presentation of Financial Statements: Classification of Liabilities as Current or Non-current and Non-current liabilities with Covenants (effective 1 January 2024)
- Amendments to IAS 7 Statement of Cash Flows and IFRS 7 Financial Instruments: Disclosures – Supplier Finance Arrangements (effective 1 January 2024)

1 21 Derivative financial instruments

Derivative financial instruments are recognised at fair value. The gain or loss on remeasurement to fair value is recognised immediately in profit or loss.

2. Revenue analysis

All revenues in the year arise from the sale of goods. All sales are made to customers in the UK.

Analysis by revenue stream

	Year Ending 28 Feb 2025 £000	Year Ending 29 Feb 2024 £000
Retail	219,828	179,050
Wholesale	58,217	52,735
Total	278,045	231,785

3 Other operating income

	Year Ending 28 Feb 2025 £000	Year Ending 29 Feb 2024 £000
Rental income	78	31

4. Expenses and auditor's remuneration

Included in operating profit are the following:

	Year Ending 28 Feb 2025 £000	Year Ending 29 Feb 2024 £000
Depreciation of tangible fixed assets	21,616	17,432
Amortisation of intangible assets	3,830	3,534
R&D expenditure	113	92

Notes (continued)

4. Expenses and auditor's remuneration (continued)

Auditor's remuneration	2025 £000	2024 £000
Audit of these financial statements	219	191
Amounts receivable by the company's auditor and its associates in respect of Audit-related assurance services	8	8
Amounts paid to the company's auditor and its associates in respect of services to the company, other than the audit of the company's financial statements, have not been disclosed as the information is required instead to be disclosed on a consolidated basis		

5 Staff numbers and costs

The average number of persons employed by the group (including directors) during the year, analysed by category, was as follows

	Year Ending 28 Feb 2025	Year Ending 29 Feb 2024
Management	8	9
Administration	300	269
Production	3,714	3,256
	<u>4,022</u>	<u>3,534</u>
The aggregate payroll costs of these persons were as follows		
	£000	£000
Wages and salaries	98,707	79,520
Social security costs	8,698	6,730
Pension costs	1,531	1,210
	<u>108,936</u>	<u>87,460</u>

Defined contribution pension scheme

The Group operates a defined contribution pension scheme. The pension cost charge for the year represents contributions payable by the Group to the scheme and amounted to £1,517k (2024: £1,210k). Contributions amounting to £185k (2024: £273k) were payable to the scheme and are included in creditors.

Notes (continued)**5 Staff numbers and costs (continued)***Remuneration of directors*

All directors' emoluments were incurred by subsidiaries within the Group. Their services to Grain Topco Limited, as a parent company, is inconsequential to attract a notional charge.

	Year Ending 28 Feb 2025 £000	Year Ending 29 Feb 2024 £000
Directors' remuneration	1,331	1,321
Company contributions to money purchase pension plans	13	22
	<u>1,344</u>	<u>1,343</u>

The aggregate of remuneration of the highest paid director was £363,390 (2024 £321,752)

Retirement benefits are accruing for 4 (2024 4) directors under directors' Money purchase schemes

6. Finance income and expense

Recognised in profit or loss

		Year Ending 28 Feb 2025 £000	Year Ending 29 Feb 2024 £000
<i>Finance income</i>			
Amounts receivable on cash and cash equivalents		407	296
Gain in fair valuation of derivative	20	-	342
Total finance income		<u>407</u>	<u>638</u>
<i>Finance expense</i>			
Loss in fair valuation of derivative	20	1,135	-
Interest expense on bank loan		10,182	10,532
Interest expense on preference shares		15,675	14,542
Interest expense on lease liabilities		6,944	5,122
Total finance expense		<u>33,935</u>	<u>30,196</u>
Net finance expense		<u>33,529</u>	<u>29,558</u>

7 Taxation

	Year Ending 28 Feb 2025 £000	Year Ending 29 Feb 2024 £000
Current tax expense/(credit)		
Current year	7	71
Adjustment in respect of prior periods	-	(5,672)
	<u>7</u>	<u>(5,601)</u>

Notes (continued)

7. Taxation (continued)

Deferred tax expense		
(Reversal) / origination of timing difference	2,130	336
Adjustment in respect of previous years	339	2,003
Deferred tax	2,469	2,339
Total tax expense/(credit)	2,476	(3,262)

Reconciliation of effective tax rate

The tax assessed on the profit on ordinary activities for the year is higher than the standard rate of corporation in the UK of 25% (2024 24.49%)

	Year Ending 28 Feb 2025 £000	Year Ending 29 Feb 2024 £000
Loss for the period	(7,845)	(4,180)
Total tax expense/(credit)	(2,476)	(3,262)
Loss excluding taxation	(10,321)	(7,442)
Tax using the UK corporation tax rate of 25% (2024 24.49%)	(1,971)	(1,823)
Interest on preference shares	3,924	3,562
Exceptional costs	-	-
Amortisation of intangibles	-	-
Other Non-deductible expenses	(198)	99
Deferred tax rate changes	(141)	75
Fixed asset differences	233	286
Other short term timing differences	-	-
Corporate interest restriction	-	333
Movement on deferred tax rate not recognised	1	(2,017)
Adjustment in respect of prior periods	350	(3,669)
Other income not taxable	278	(84)
Total tax expense	(2,476)	(3,238)

The UK tax rate increased to 25% from 1 April 2023. An effective UK corporation tax rate of 25% (2024 24.49%) is therefore applicable for the year to 28 Feb 2025. The deferred tax liability at 28 February 2025 has been calculated at 25% (2024 24.49%).

At 29 February 2024	1,098	133,126	51,820	2,724	188,768
At 28 February 2025	1,038	133,126	48,830	2,365	185,359

Notes (continued)

10 Intangible assets (continued)

Software includes third party costs for ERP software and EPOS applications

Brand is cost attributed to external brands on acquisition of businesses

Customer relations is the cost attributed to existing relationships with customers upon acquisition of businesses

Amortisation

The amortisation charge is recognised within administrative expenses in the income statement in each financial year

Impairment review

Goodwill considered significant in comparison to the Group's total carrying amount of such assets have been allocated to cash generating units or groups of cash generating units as follows

	£000 2025
Retail	74,726
Wholesale	58,400
	<u>133,126</u>

Impairment assessment

Annual impairment review of both retail and wholesale CGU was carried out and the recoverable amount of both the retail and wholesale CGU was calculated by taking into account the performance of the business in the last 12 months. As a result of the review performed no impairment was identified and the estimated recoverable amount of the CGU's exceeded their carrying value. The post-tax WACC used as part of the review is 8.0%.

Sensitivity analysis

The estimated recoverable amount of the CGUs exceeded their carrying amount by approximately

- Retail £240.7m
- Wholesale £18.5m

Management has considered that if the EBITDA fell by 10% (Wholesale) and 5% (Retail), the recoverable amount would still exceed the carrying value and there would be no requirement for an impairment.

Notes (continued)

11 Deferred tax assets and liabilities

Recognised deferred tax assets and liabilities: Deferred tax liabilities are attributable to the following

	28 February 2025 £000	29 February 2024 £000
Accelerated capital allowances	(9,175)	(6,446)
Short term timing differences	46	66
Losses and other deductions	238	-

Notes (continued)

15 Lease liabilities

	2025 £000	2024 £000
Opening balance	59,683	54,223
Additions during the year	17,560	9,676
Interest relating to lease liabilities	6,944	5,122
Remeasurement of lease liabilities	543	903
Disposal of lease liabilities	-	-
Payment of lease liabilities	(11,378)	(10,242)
At 28 February (2024: 29 February)	73,352	59,682
Lease liabilities due within one year	6,135	4,854
Lease liabilities due in more than one year	67,217	54,828

The maturity analysis of lease liabilities is as follows

	2025 £000	2024 £000
Lease liabilities due within one year	13,651	10,198
Lease liabilities due in 2-5 years	49,757	39,412
Lease liabilities due in more than 5 years	58,216	45,215
Total minimum lease payments	121,624	94,825

The following amounts have been recognised in profit or loss for which the Group is a lessee

	2025 £000	2024 £000
Interest expense on lease liabilities	6,944	5,122

Amounts recognised in statement of cash flows

	2025 £000	2024 £000
Total cash outflow for leases	11,378	10,241

Notes (continued)

16 Other interest-bearing loans and borrowings

This note provides information about the contractual terms of the Group's interest-bearing loans and borrowings, which are measured at amortised cost. For more information about the Group's exposure to interest rate risk, see note 19.

	2025 £000	2024 £000
Non-current liabilities		
Secured bank loans	110,037	111,989
Redeemable preference shares	98,011	98,153
Interest on redeemable preference shares	48,032	32,185
	<u>256,080</u>	<u>242,327</u>

Redeemable preference shares

	2025 £000	2024 £000
Redeemable preference shares b/f	130,338	119,331
Interest accrued on preference shares	15,901	14,542
Interest paid	(53)	(931)
Preference shares redeemed	(143)	(2,794)
Preference shares issued	-	190
Redeemable preference shares	<u>146,043</u>	<u>130,338</u>

The redeemable preference shares are redeemable by the Company and the Group is obliged to pay holders of these shares annual dividends of 12% of the par amount until and including on maturity. Redeemable preference shares do not carry the right to vote. In the year, £0.1m (2024: £2.8m) preference shares were redeemed and none (2024: 190) were issued. During the period, £0.1m (2024: £0.9m) interest was paid, and £15.7m (2024: £14.5m) of interest was accrued with a further £0.2m of backdated interest.

Bank Loans

During the year, the Group returned the second £2.5m of its £5m capex facility to the lender. The Group is still party to the swap arrangement entered into and effective 5 October 2022 with Rabobank. The base interest rate (pre margin) is fixed at +3.856% on the £109m loan. The swap transaction is due to terminate on the 5 October 2028. This is an all-asset debenture, where collateral is held, that has fixed charges over property and fixed assets, and floating charges over receivables and inventory.

---	------------	--------

During the year, 142,698 preference shares were redeemed

During the year, £15.7m of interest was accrued on the preference shares, plus a further £0.2m of backdated interest incurred in the year

The holders of Ordinary shares are entitled to receive dividends as declared and are entitled to one vote per share at general meetings of the Company. On 24 Feb 2025, the brought forward, unpaid C1 share balance of £25k was fully paid

Notes (continued)

20. Financial instruments

Fair value

The table below analyses financial instruments, into a fair value hierarchy based on the valuation technique used to determine fair value

	Carrying amount 2025 £000	Fair value 2025 £000
Financial assets		
Cash and cash equivalents	2,663	2,663
Trade receivables	6,901	7,389
Other Investments, Including derivatives	423	423
Financial liabilities		
Interest bearing loans and borrowings	256,080	256,080
Lease liabilities	73,352	-
Trade and other payables	27,460	27,460
Provisions	517	517

Other investments, including derivatives is made up of the interest rate swap taken out during the year, which was marked to market and held as an asset at fair value as at 28 Feb 2025

Cash and cash equivalents include amounts held with banking institutions with good reputations and are therefore considered recoverable

Trade and other payables include trade payables, accrued expenses, and corporation and other taxation

20 (a) *Fair value of financial instruments*

- Level 1 quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)
- Level 3 inputs for the asset or liability that are not based on observable market data (unobservable inputs)

At 28 February 2025, the Group held all financial instruments at level 2

20 (b) *Credit risk*

Financial risk management

Credit risk is the risk of financial loss to the Group if a customer or counter party to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers and cash held at financial institutions. Retail sales represent a proportion of the Group's sales and present no credit risk as they are paid for at point of sale. Where credit sales are concerned the Group operates effective credit control procedures in order to minimise exposure to overdue debts. The Group has written credit control policies which cover procedures for accepting new customers, setting credit limits, dealing with overdue amounts and delinquent payers. An impairment loss provision against trade receivables is created where it is anticipated that the value of trade receivables is not fully recoverable.

Notes (continued)

20 Financial instruments (continued)

The concentration of credit risk for trade receivables at the balance sheet date by business segment was

	2025 £000
Retail	331
Wholesale	6,570
	<u>6,901</u>

Exposure to credit risk

The maximum exposure to credit risk at the balance sheet date by class of financial instrument was,

	2025 £000
Trade receivables	6,901
Cash and cash equivalents	2,663
	<u>9,564</u>

Based on existing business operations, the exposure to credit risk is considered low. A summary of the Group's exposure to credit risk for trade receivables by ageing is as follows:

The ageing of trade receivables at the balance sheet date is detailed below. Though the group considers the credit risk of a financial asset to increase if it is more than 30 days past due, and more significantly over 120 days past due, it is only considered in default if the asset is more than 120 days due and it is unlikely that the borrower will pay its credit obligations to the group, in full.

28 Feb 2025

Ageing	Credit impairment Gross £000	Trade Receivables Gross £000	Trade Receivables Net £000	Impairment £000
Not past due	-	4,152	4,152	-
Past due 0-30 days	(19)	2,187	2,168	(19)
Past due 31-120 days	(25)	576	551	(25)
More than 120 days	(185)	215	30	(185)
Total gross carrying amount	<u>(229)</u>	<u>7,130</u>	<u>6,901</u>	<u>(229)</u>

Notes (continued)

29 Feb 2024

Ageing	Credit impairment Gross £000	Trade Receivables Gross £000	Trade Receivables Net £000	Impairment £000
Not past due	-	3,840	3,840	-
Past due 0-30 days	(20)	1,818	1,798	(20)
Past due 31-120 days	(25)	494	469	(25)
More than 120 days	(162)	222	60	(162)
Total gross carrying amount	(207)	6,374	6,167	(207)

A bad debt expense of £0.11m was recognised during the year to 28 Feb 2025 (2024: £0.03m)

Other credit risk relates to cash and cash equivalents. *Cash and cash equivalents* include amounts held with banking institutions with good reputations and are therefore considered low risk.

20 (b)(i) Credit risk

The movement in the allowance for impairment in respect of trade receivables during the year was as follows:

	2025 £000	2024 £000
Opening balance	207	222
Provision created during the year	97	34
Provision utilised during the year	(75)	(49)
Balance at 28 February (29 February 2024)	229	207

The allowance account for trade receivables is used to record impairment losses unless the Group is satisfied that no recovery of the amount owing is possible, at that point the amounts considered irrecoverable are written off against the trade receivables directly. The Group considers the trading status of the owing company along with the legal right to receive the funds before considering an amount irrecoverable.

There were not considered to be any significant changes in the gross carrying amounts of trade receivables contributing to the increase in the impairment loss allowance during the period.

Notes (continued)

20 Financial instruments (continued)

20 (c) Financial risk management

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due

The Group's approach to managing liquidity is to hold cash and cash equivalents and maintain undrawn committed facilities at a level sufficient to ensure that the Group has available funds to meet its liabilities as they become due

The following are the contractual maturities of financial liabilities, including estimated interest payments and excluding the effect of netting agreements

	2025 £000	2024 £000
Liabilities		
Trade and other payables	27,460	27,508
Interest bearing loans and borrowings	256,080	242,327
Lease liabilities	73,352	59,683
Provisions	517	517
	<u>357,409</u>	<u>330,035</u>

The maturities of the trade and other payables, and finance lease liabilities are detailed below

Liability	Due within 1 year	Due within 2 to 5 years	Due in more than 5 years	Total
Trade and other payables	27,460	-	-	27,460
Lease liabilities	6,135	22,637	44,580	73,352

The maturities of the interest-bearing loans and borrowings are disclosed in note 15

20 (d) Market risk

Financial risk management

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Group's income or the value of its holdings of financial instruments. All of the Group's operations and customers are based in the UK. Foreign currency risk is not a principal risk. A small number of suppliers are based in Europe so a Euro currency bank accounts are maintained. Transactions in foreign currency are translated at the foreign exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the statement of financial position date are translated at the foreign exchange rate ruling at that date. Foreign exchange differences arising on translation are recognised in the income statement.

During the year, the group entered a SWAP arrangement, mitigating the risk of interest rate fluctuations. The interest rates are fixed on the bank loan, and the preference share interest is also fixed.

The non-sterling cash profile at the year-end was

	2025 £000	2024 £000
Currency		
Euro	143	7

Notes (continued)

20 (e) Capital management

Capital comprises total equity as shown in the statement of financial position. The Group's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain the future development of the business. The Group manages its capital structure and makes adjustments to it in light of the economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares.

There were no changes to the Group's approach to capital management during the year and neither the Company nor any of its subsidiaries are subject to externally imposed capital requirements.

There were no changes to the Group's approach to capital management during the year and neither the Company nor any of its subsidiaries are subject to externally imposed capital requirements.

21. Commitments

Capital commitments

As at 28 February 2025, the group had capital commitments relating to new store openings totalling £323,148 (2024 £333,114)

22. Related parties

Identity of related parties with which the Group has transacted

Included within the redeemable preference share creditor are amounts of £65,575,327 due to Bain Capital Credit Member II Limited, £38,472,857 due to McWin SRO and £25,436,595 due to L Johnson. Included within the accruals creditor are amounts of £245,000 due to Bain Capital Credit Member II Limited, £245,000 due to McWin SRO.

Unpaid share capital of £25,000 was paid up by a director during the year.

Transactions with key management personnel

Transactions with Directors

Directors of the Company control 26.3% of the voting shares of the Company.

The compensation of the directors is as follows

	Year Ending 28 Feb 2025 £000	Year Ending 29 Feb 2024 £000
Key management emoluments including social security costs	1,331	1,450

The total amount paid to the highest paid director in respect of emoluments was £363,390 (2024 £321,752)

23 Ultimate parent company and parent company of larger group

The directors do not consider there to be one ultimate controlling party.

Notes (forming part of the financial statements)

24 Accounting policies (company)

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the financial statements, except as noted below

Basis of preparation

The financial statements have been prepared in accordance with applicable accounting standards, and under the historical cost accounting rules. Under section 408 of the Companies Act 2006 the company is exempt from the requirement to present its own profit and loss account.

These parent company accounts were prepared in accordance with Financial Reporting Standard 102 *The Financial Reporting Standard* applicable in the UK and Republic of Ireland (*FRS 102*).

The parent company is considered to be a qualifying entity under FRS 102 paragraphs 1.8 to 1.12. The following exemptions available under FRS 102 have been applied:

- The reconciliation of the number of shares outstanding from the beginning to the end of the year has not been included
- No separate parent company cash flow statement with related notes is included

Individual statement of comprehensive income

As permitted by Section 408 of the Companies Act 2006, the Statement of Comprehensive Income of the parent company is not presented as part of these financial statements.

The loss for the parent company for the period was £13.5m, arising primarily from accrued preference share interest. The company has no Other Comprehensive Income.

Investments

Investments in subsidiary undertakings, associates and joint ventures are stated at cost less amounts written off.

Taxation

The charge for taxation is based on the profit for the year and takes into account taxation deferred because of timing differences between the treatment of certain items for taxation and accounting purposes.

Deferred tax is recognised, without discounting, in respect of all timing differences between the treatment of certain items for taxation and accounting purposes which have arisen but not reversed by the balance sheet date, except as otherwise required by FRS 102.

Dividends on shares presented within shareholders' funds

Dividends are only recognised as a liability to the extent that they are declared prior to the year end. Unpaid dividends that do not meet these criteria are disclosed in the notes to the financial statements.

Interest bearing borrowings

Immediately after issue debt is stated at the fair value of the consideration received on the issue of the capital instrument after deduction of issue costs. The finance cost of the debt is allocated to years over the term of the debt at a constant rate on the carrying amount.

Going concern

The company financial statements have been prepared under the going concern basis which assumes the company will continue in operational existence for the foreseeable future. The directors believe that it is appropriate for the financial statements to be prepared on a going concern basis given the overall position of the Group and the factors described on page 19.

Notes (continued)

25 Fixed-assets investments

Cost

At beginning and end of each financial year presented £123,816

The undertakings in which the company holds an interest at the year end are as follows

	Country of incorporation	Class of share capital held	Proportion of share capital held	Nature of business
<i>Subsidiary undertakings</i>				
Grain Midco Limited	England & Wales	Ordinary	100%	Holding company
Grain Bidco Limited*	England & Wales	Ordinary	100%	Holding company
Bread Holdings Limited*	England & Wales	Ordinary	100%	Holding company
Bread Acquisitions Limited*	England & Wales	Ordinary	100%	Holding company
Bread Limited*	England & Wales	Ordinary	100%	Holding company
Bread Factory Limited*	England & Wales	Ordinary	100%	Wholesale bakery
Gail's Limited*	England & Wales	Ordinary	100%	Retail bakery

Wild Thexton Gluten Free Limited*	England & Wales	Ordinary	100%	Wholesale bakery

* Held indirectly

All subsidiaries are controlled and consolidated by the Group and the Directors have taken the exemption from having an audit of its financial statements for the year ended 28 February 2025. This exemption is taken in accordance with the Companies Act s479A.

During the year, the company purchased the 50% share capital of its joint venture, Wild Thexton Gluten Free Limited, making Wild Thexton Gluten Free Limited a wholly owned subsidiary.

26. Debtors

	2025 £000	2024 £000
Amounts owed by group undertakings	36,612	34,314
Other debtors	382	97
	<u>36,994</u>	<u>34,411</u>

Amounts owed by Group undertakings are long term in nature and are not repayable on demand.
Interest is charged at a rate of 9.7%.

Notes (continued)

27 Creditors, amounts falling due within one year

	2025 £000	2024 £000
Accruals and deferred income	1,316	974
	<u>1,316</u>	<u>974</u>

28 Creditors, amounts falling due after more than one year

	2025 £000	2024 £000
Redeemable preference shares (par value £1 per share)	146,043	130,338
	<u>146,043</u>	<u>130,338</u>

The redeemable preference shares are redeemable by the Company and the Group is obliged to pay holders of these shares annual dividends of 12% of the par amount until and including on maturity. Redeemable preference shares do not carry the right to vote. In the year, £0.1m (2024: £2.8m) preference shares were redeemed and none (2024: 190,000) were issued. During the period, £0.1m (2024: £0.9m) interest was paid, and £15.7m (2024: £14.5m) of interest was accrued with a further £0.2m of backdated interest.

29 Share premium and other reserves

	Share Capital £000	Share Premium £000
Shares at start of year	959	7,730
Shares issued in year	-	-
At end of year	<u>959</u>	<u>7,730</u>

During the year, no shares were allotted (2024: 10,000). Ordinary B shares of £0.10 shares were allotted and fully paid.

30 Contingent liabilities

There is cross guarantee for all external debt across the Group. This guarantee holds all companies jointly and severally liable for external loan liabilities.

31 Ultimate controlling party

The directors do not consider there to be one ultimate controlling party.
